Ibiza,
an oasis for your events

Ibiza comprises five municipalities which, together, form a diverse destination full of contrasts.

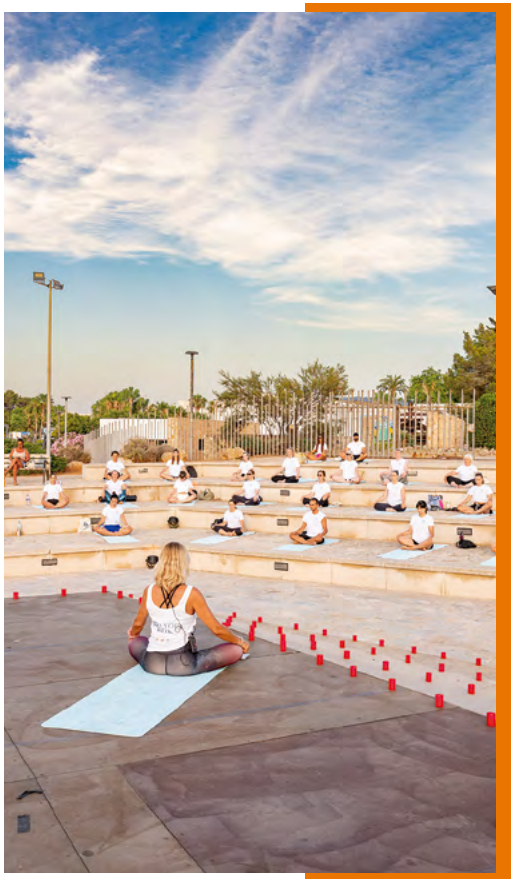

Ibiza / Eivissa, the capital, is the historical and cultural heart of the island. The old town, Dalt Vila – a UNESCO World Heritage Site – its Renaissance city walls, museums and galleries, culinary scene, vibrant city life and excellent transport links make it the perfect venue for hosting any event.

Santa Eulària des Riu is the municipality into which the Balearic Islands' only river flows. Its seafront promenade, the Puig de Missa and its marina blend the sea and culture within the same landscape. It is the ideal setting for incentive trips that combine wellbeing, fine dining and sustainable experiences.

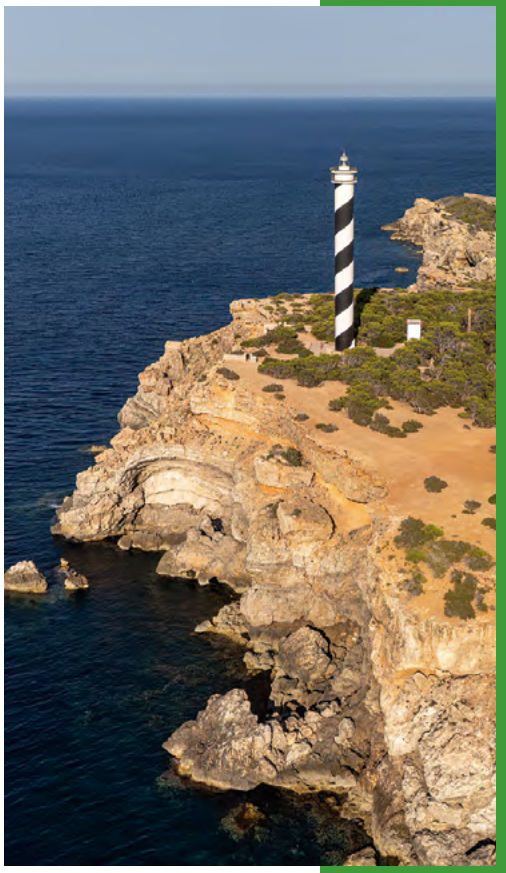

Sant Josep de sa Talaia

is home to spectacular natural landscapes: idyllic beaches, the nature reserves of es Vedrà, es Vedranell and the Poniente islets, vineyards and footpaths that connect visitors with the most authentic side of Ibiza. Its range of venues with sea views makes it the ideal setting for exclusive experiences.

Sant Antoni de Portmany

combines tradition and modernity in a dynamic way. Known for its unforgettable sunsets, wide range of accommodation options and modern facilities, it is the perfect venue for corporate events, outdoor activities and team-building programmes.

Sant Joan de Labritja

embodies the purest spirit of the island. From the Es Amunts Area of Special Natural Interest to hidden coves such as Benirràs, where the sunset is celebrated to the beat of drums, the municipality is ideal for sustainable events, retreats and immersive experiences that draw inspiration from nature and the deepest roots of Ibiza.

Why Ibiza is an international MICE destination

Ibiza is an easily accessible island, with connections to more than 80 international destinations. Its Mediterranean climate, with over 2,700 hours of sunshine a year, means events can be held at any time of year. Its first-class hotel facilities, its cultural and natural attractions recognised by UNESCO, and an efficient logistics network make Ibiza a versatile and sustainable MICE destination. Each detail reflects its ability to host high-profile meetings and events in an inspiring setting, where accessibility and authenticity combine to create unforgettable experiences.

Ibiza has established itself as one of the most attractive MICE destinations in the Mediterranean thanks to its international connectivity, premium accommodation options and modern event facilities. But Ibiza is not just a place to hold events. The island is a setting where ideas take shape and business relationships are strengthened. Its compact size makes logistics straightforward, while its versatility allows for the creation of unique programmes: from meetings in venues with sea views to events amongst the vineyards or outdoor activities all year round.

Surrounded by nature, blessed with a mild climate and characterised by authentic Mediterranean charm, the island offers a perfect and unique blend of modern facilities, a wide range of high-quality professional services and the unrivalled authenticity of its Mediterranean way of life. Tradition and innovation come together to transform every event into a memorable experience, making the island a strategic, sustainable destination that fosters creativity and opportunities for the global MICE market.

Ibiza Convention Bureau

The Ibiza Convention Bureau (ICB) is the island's only MICE product club and the main strategic partner for organising professional events in the destination. The ICB is made up of specialist companies and organisations in the sector (hotels, venues, DMC agencies, service providers and unique venues) and offers free advice, detailed information and personalised support at every stage of the event. Its aim is to make planning easier, connect with the best local suppliers and ensure that every project is carried out successfully. The ICB promotes a sustainable, innovative and competitive model of business tourism, strengthening Ibiza's position in the international MICE market.

Destination sustainability

Sustainability is one of the strategic pillars of Ibiza's tourism development. Mindful of its territorial fragility, the island is implementing policies that strike a balance between growth, conservation and quality of life. The Emergency Plan to Combat Unlicensed Practice, funded by the Sustainable Tourism Tax, has significantly reduced the supply of illegal accommodation and transport, easing pressure on the region and strengthening the regulated sector. In transport, the Vehicle Traffic Control Act restricts summer traffic and promotes public transport, electric vehicles and car-sharing, reducing emissions and improving the visitor experience.

Ibiza is currently part of the European Smart Tourism Destinations project and is developing the Ibiza Smart Island initiative on the island, implementing technological solutions such as environmental sensors, beach capacity control and smart transport systems to optimise resources and protect the environment.

The conservation of its biodiversity – with over 43% of the territory under protection – the restoration of the traditional agricultural landscape and support for small-scale fishing all reinforce a model of tourism based on respect for the environment, local identity and social cohesion. This commitment makes Ibiza a pioneering and responsible destination, ready to face the challenges of the future.

SANT ANTONI DE PORTMANY

Can Portmany Cultural Centre

Ajuntament de Sant Antoni de Portmany

It is an iconic building situated in Sant Rafel, which was built in 1933 by Joan Gómez Ripoll (Campos). The building was listed as a Protected Asset in 2003 and combines traditional Cuban architecture with neoclassicism and the simplicity typical of this Ibizan master builder. The property was purchased and restored by the Government of the Balearic Islands in 2007. In 2015, ownership was transferred to Sant Antoni de Portmany Town Council, which now uses it for cultural and social purposes. It has an exhibition hall and a veranda running around the building, which overlooks the main street in Sant Rafel.

The Ses Coves Blanques Lighthouse forms part of the townscape of Sant Antoni. Opened in 1897, the building went through all sorts of ups and downs and ceased operations in 1963. In 2010, following extensive restoration work, it was converted into a socio-cultural centre comprising several rooms. Its prime location, right in the town centre, makes it a very accessible and popular venue, with a year-round programme of exhibitions and events. In 2014, the lighthouse tower was restored to its original lighting fixture, which had been discovered, dismantled, in a chicken coop.
